Informing the practice of teaching using formative and ...

Informing practice in English 1 New international conceptualisations of literacy One of the strongest trends in contemporary research and scholarship in English is the reframing of the subject as literacy. Underpinning this changed emphasis is a perspective which conceptualises literacy as being about far more than reading, writing and talking.

Informing practice in English - dera.ioe.ac.uk

Research has both a cultural and an instrumental role to play in informing education practice. Education research with these aims may collect evidence, and the form and amount of evidence collected varies with the purpose and question of the research. This is the case in other fields of research, too.
